COMMISSIONER'S MESSAGE

"AND NOW THE END IS NEAR AND WE FACE THE FINAL CURTAIN . . ."

As one of the Commissioners I have watched just words and music on pieces of paper magically transform themselves into a live moving experience that you will see tonight.

It would take forever for me to convey all the sensations I have experienced being a SING Commissioner.

The night they announced my name as Commissioner there was a feeling of great elation. In the interim there was utter despair, frustration and physical pain from lack of sleep. All of these in their own way were marvelous experiences, but tonight the feeling of accomplishment and pride transcends all previous emotions.

Throughout my involvement in SING I have learned how people react under pressure, how to play referee in never ending battles and how to be a shoulder to lean on when the pressures became too great.

In spite of it all, given the opportunity, I would definitely do it again!

My message would not be complete unless I personally thanked the following people, for without their love and support I could have never made it. To my Co-Commissioners, Laurie and Sherri and my family, who were always there when I needed them. To those who were and still remain my close friends and to all my new friends — Thanks for making SING '80 a reality!!

With Much Love, Karen

Sing has been the major part of my school activities for the past three years. I leave it with many memories, and much regret. I will cherish the bad remembrances as well as the good, for they have both taught me countless lessons.

Working so closely with such diversities has given me insights, not only to others, but to myself as well. As a commissioner, I assumed the role of arbitrator, punching bag and grievance committee combined, but the excitement generated this evening somehow extenuates the bitterness, tears, and pain of the past.

The Sophomores have learned what a true effort entails, and your future involvement will sharpen the knowledge you retain from your Sing experiences.

The Juniors move on to their senior year with the essentials for the best Sing ever. Continue to use your talent to its fullest extent.

The Seniors: you have progressed tremendously and finally exemplify true professionalism. You have my respect and friendship.

Most of all, credit is due to my parents — thank you for your love and support — now do you understand what all the fuss was about? To my friends outside FH; you understood me without even knowing what Sing is!

Finally, Karen and Sherri, who have put up with all my craziness. I will always remember the neverending nights, and out-of-the-way cab rides . . . I love you both.

With love and friendship, Laurie

My first encounter with the activity simply entitled "SING" was a memorable one. The indescribable satisfaction present on the faces of the members, filled me with a desire to be a part of "SING" and learn the secret which made it seem almost magical.

The first two years of my involvement revealed the aesthetic behind the production. Those are script, music, acting, etc. Yet these are merely the foundations. Well, today a revelation unraveled itself to me — I discovered the secret. The magic which caused a spark to ignite and in turn made SING a reality is the love and devotion of the people in SING. To all of the people who have helped create this miracle, I applaud you. For, to me, tonight you're all stars.

I would like to thank my parents for putting up with the numerous tantrums and pools of tears. Please believe me when I say you are the two treasures I value most. Karen, all I can say is it's been great and I will always love you. Stay as beautiful inside as you are outside. Laurie, thanks for understanding and the many hugs. We have a bright future ahead.

To my own class and friends, the Seniors, just think, our involvement in SING has made many friends for all of us. I will never forget the talks, screaming, and tears, along with the hugs and kisses. We have walked a long path leading to our pinnacle on the sky. Even if your goals of SING have not been attained, I am confident all personal ones have. My only wish is that we could do it once again.

My love always, Sherri
